Pursuant to titles 18 USC 3142 (b)(4)(7). THE danger posed to the defendant IN STE GERVILLE County Jail by Covid-19 pandemic Constitutes an Independent Compelling reason to temporarily release from Custody with additions the defendants underlying medical Conditions of asthma which the Covid-19 virus attacks the respiratory system free, depression, and anxiety. On march 23/2020 CDC Acknowledge that Correctional and detention facilities Present unique challenges for Control of Covid-19

transmission among incarcerated detained persons, staff and visitors. Specifically the CDC noted that many detention conditions create a heightened risk of danger to detainees, these includes low capacity for patient volume, insufficient quarantine space, insufficient on site medical staff, highly congregational environments, inability of most patients to leave the facility and limit ability of incarcerated detained person to exercise effective disease prevention measures. (E.g. social distancing, frequent handwashing, alcohol based hand sanitizer, and alcohol based cleaning supply) See <https://www.cdc.gov/coronavirus/2019-ncov/community/correction/detention-guidance-correctional-detention.html>. On March 26, 2020 attorney General William Barr issued a separate directive ordering the Director of Bureau of Prison to prioritize home confinement as appropriate in response to the COVID-19 pandemic for Federal Prisoners and Jail Inmate. Also the COVID-19 pandemic poses a threat to the defendant's ability to prepare for his case due to the facts of the USMS restriction on visitations, the Federal Public Defenders working from home which is making it impossible for the defendant to get in contact with legal counsel.
